Leaving the Plan

Please note, you cannot 'suspend' your membership or take any type of 'contribution holiday'. Opting out of the Telefónica Pension Plan has important implications for you and your dependants, both now and in the future. This action means:

1. Telefónica will no longer be contributing any employer contributions towards your Pension.
2. You will no longer be eligible to apply for any Income Protection benefits now or at any time in future, regardless of whether you re-join the Plan.
3. You're likely to have reduced Life Assurance cover and you're likely to lose your dependant Pension benefit entitlement. This applies not only now but also if you re-join the Pension Plan at a later date.
4. You may have to pay more tax.

For more information about leaving the Telefónica Pension Plan, please visit: www.telefonicapensions.com. We would also recommend you seek independent financial advice before taking any action. If you're unsure which section of the Plan you're in then please visit www.telefonicapensions.com or contact our EPSC support team. Full contacts details are also found on the Telefónica Pensions website.

We've created the below summary tables to show what benefits you will lose by opting out of the Plan. The tables are broken down into the different sections of the Telefónica Pension Plan so you can review the information which is relevant for your membership/ section. Please read this information very carefully before taking any action.

Please note a refund of the deceased members entire retirement account may be made where there is a deferred benefit.
